LOGISTICAL DETAILS

POLLENZO UNIVERSITY SITE

The **Albergo dell'Agenzia** and **Albergo Corte Albertina** are located in **Pollenzo**, a small village a few kilometers away from Alba and Bra, between the Langhe and Roero hills and near Monferrato Land, one of the **UNESCO world heritage site**.

The Albergo dell'Agenzia hotel is a brilliant brainchild of **Slow Food Organization**: the most important institution in the world for the promotion and defense of food culture based on respect for the environment and human rights.

This hotel, as the Albergo Corte Albertina, is housed in the same complex of the **University of Gastronomic Sciences** also created by Slow Food and of the world-wide prestigious **Wine Bank**, it's the result of an accurate restoration of the neo-Gothic buildings of king Carlo Alberto of Savoy's royal estate.

The University, attracts every year young student from all over the world, all mindful and motivated to use enthusiasm and creativity to renew production chains and distribution and commercialization methods to bring good, clean and fair food to our tables. For these reasons the hotel menu is based on the traditional local dishes of Langhe and Monferrato, but also includes fish dishes and revisited recipes. Local products and Slow Food Presidia guarantee an essential cuisine of great quality. Moreover, aside the University complex, the **San Vittore church**, built in 1846, commissioned by the King Carlo Alberto on a pre-existing 5th century church, in neo-Gothic style and as an important spiritual complement in the innovative approach of sustainability of this cultural strategic place for youth future quality.

ASTI CATHEDRAL SITE: One of the most important of Gothic art in Italy, the result of three successive reconstructions over seven hundred years. It is made of terracotta and tuff, the typical sandstone of Monferrato lands and typical art of the middle-age city of Asti.

COLLE DON BOSCO: Native home of San Giovanni Bosco and adolescence site of San Domenico Savio. Now also famous for its very modern and vat-shaped interior of the new Basilica, in celebration of the Divine gift of the famous wine from this 'Land of Saints'

PIEA CASTLE: One of the most beautiful and best preserved eighteenth-century private castles in Monferrato and Piedmont. Still fully furnished with original 18th century furniture and famous for having hosted and supported the social mission of San Giovanni Bosco. A place that, together with Viale, saw the miracle of rain on 5th August 1895 by the Servant of God Fra Leopoldo Musso, co-founder of the biggest Italian private Professional School "Casa di carità - Arti e Mestieri Foundation" now co-managed by UCID TORINO.
